## Merry Christmas

"The mistletoe hung in the castle hall,  
The holly branch shone on the old oak wall."

—Thomas Haynes Bayly.

Oh, happy Christmas day—we bid thee welcome. We've been counting the days—yea, the hours and minutes—to hear thy merry bells ring out that joyful message of old—"Peace on Earth, Good Will toward Men." And—at last—we've heard it. We're content. Happy. Thankful.

In every home in the land—from the humble candle lighted shack up to the marble halls of the rich man's castle—there prevails a certain spirit of kindness that only this festive occasion brings. It's that Christmas feeling of Good Will toward our fellow man. And that this is sincere is proven by the smiling countenances, the kindly words and the hearty hand-clasps which greet one on every side.

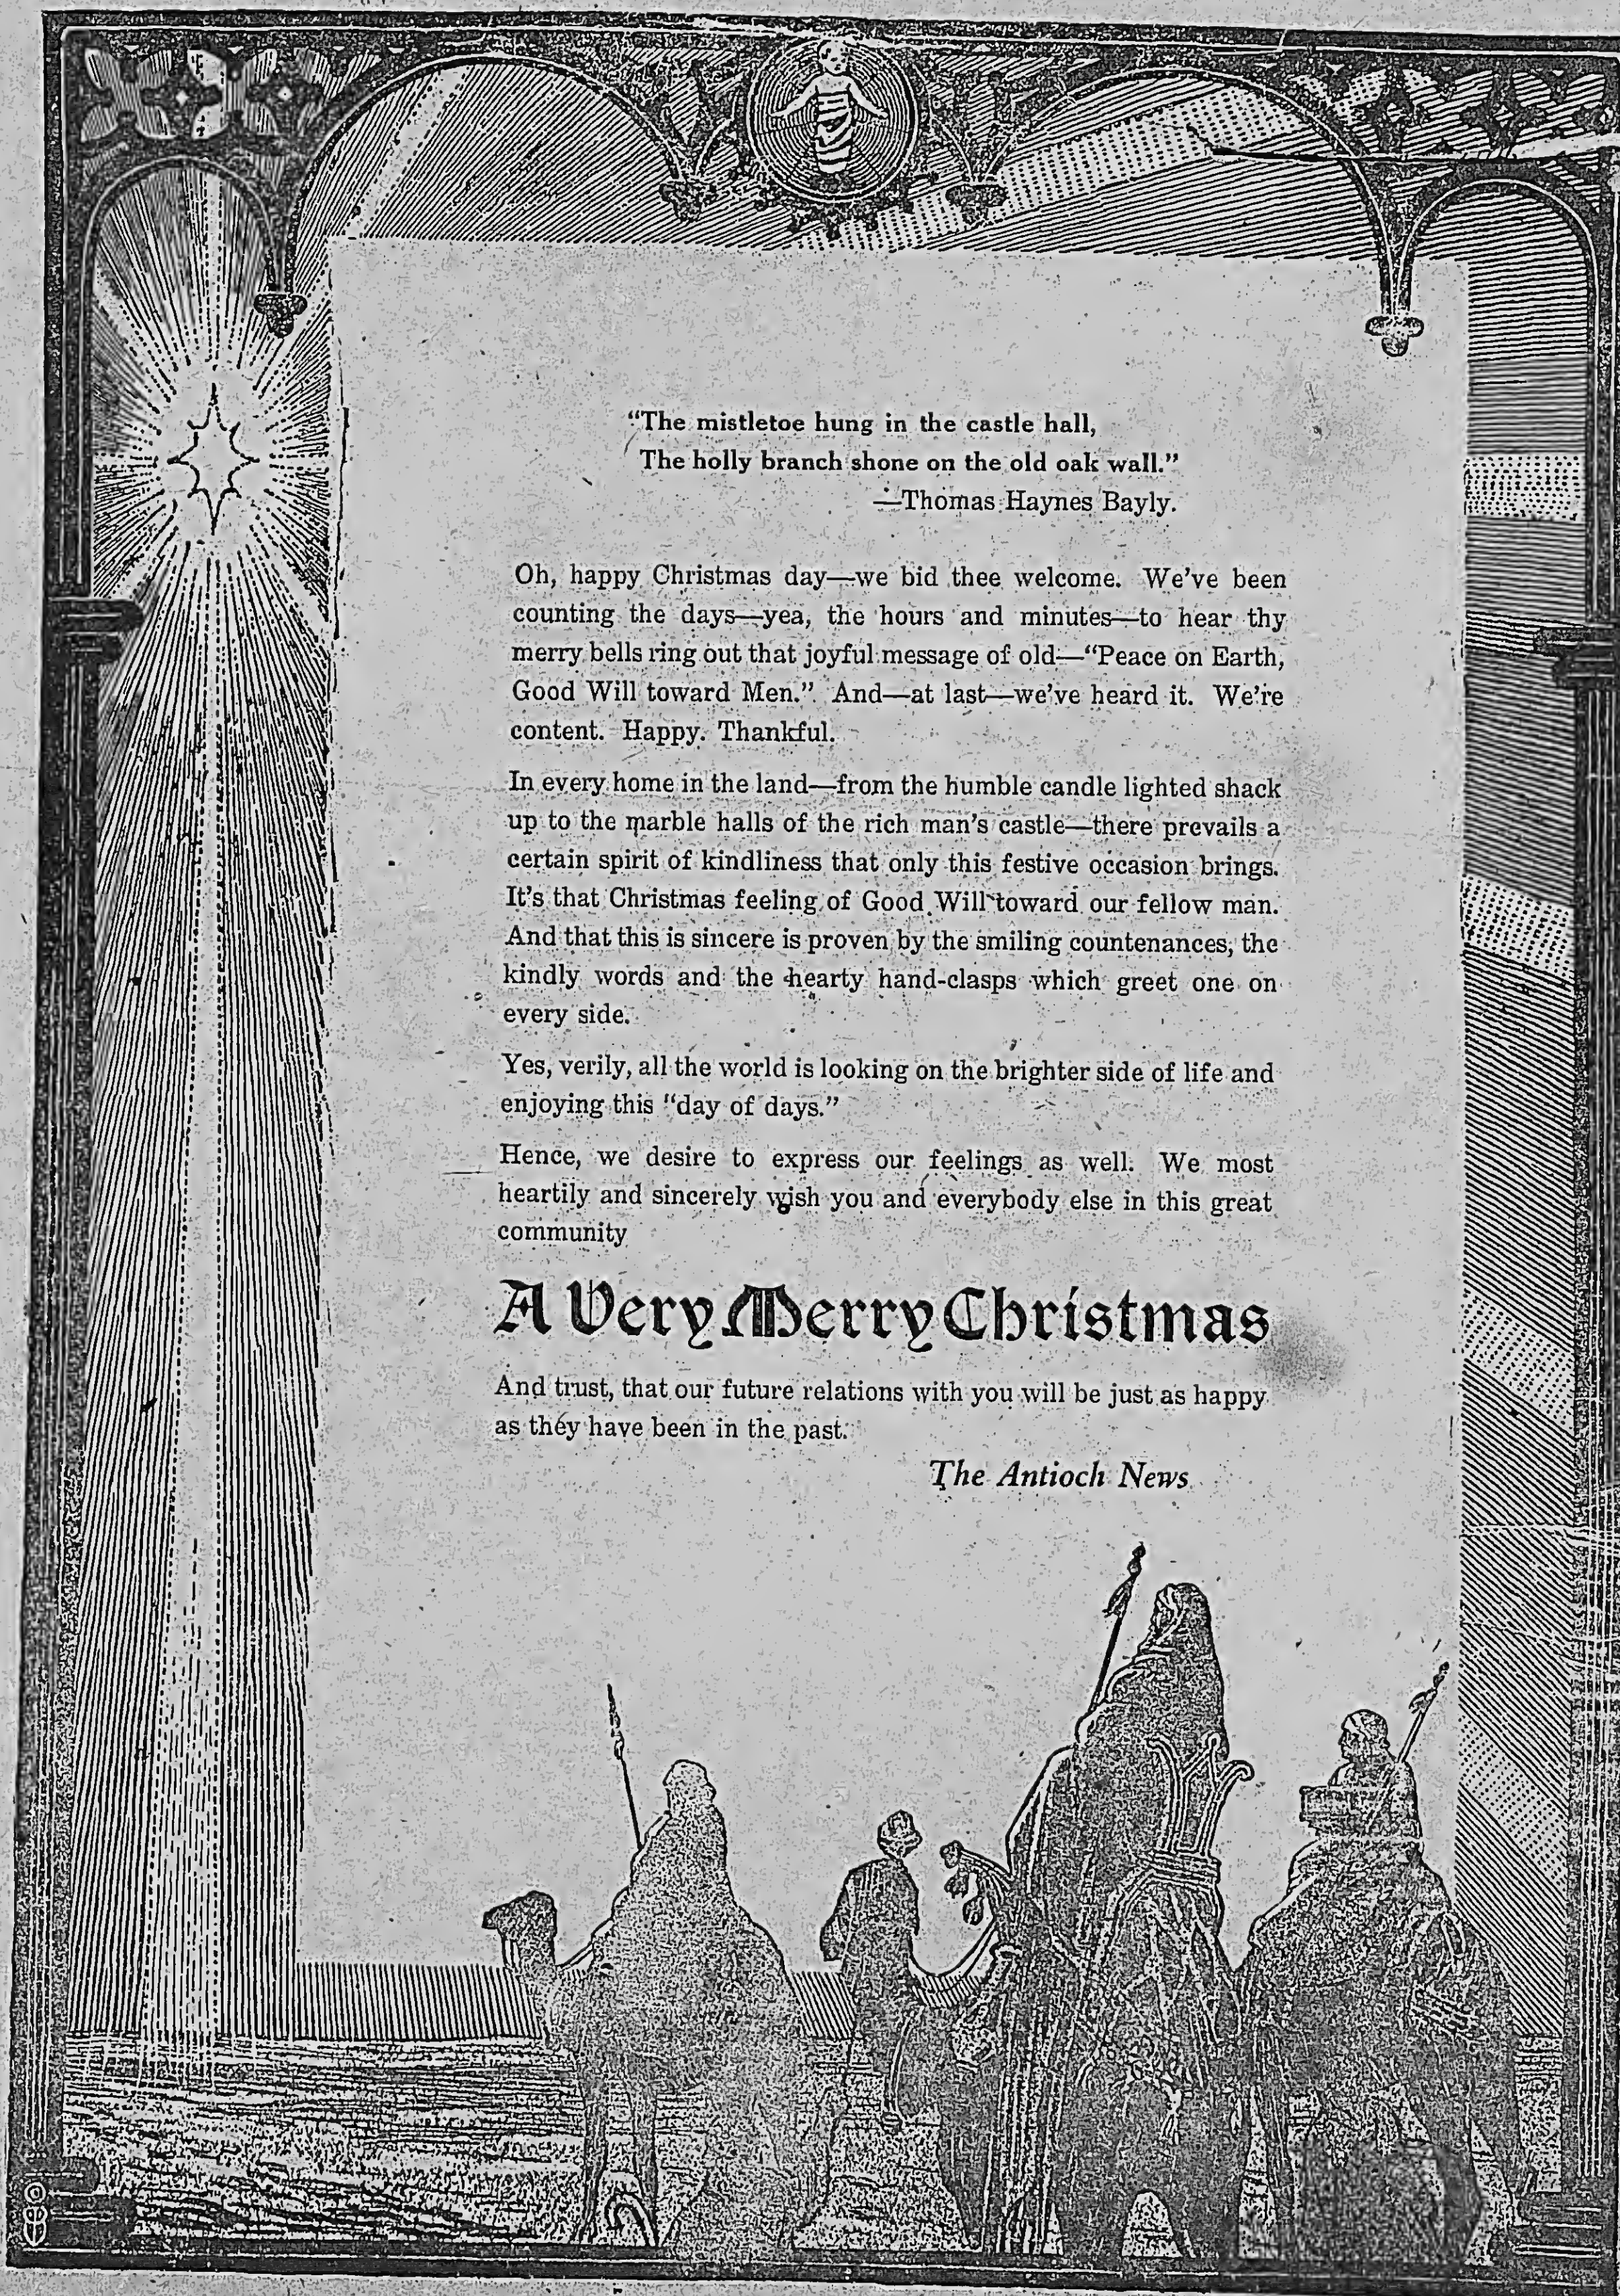

Yes, verily, all the world is looking on the brighter side of life and enjoying this "day of days."

Hence, we desire to express our feelings as well. We most heartily and sincerely wish you and everybody else in this great community

### A Very Merry Christmas

And trust, that our future relations with you will be just as happy as they have been in the past.

## Mrs. W. Mau Passes Away at Channel Lake

### A Resident of This Vicinity for Thirty-three Years

Monday morning, Dec. 17, Mrs. Wilhelmine Mau passed away at the home of her daughter, Mrs. Fred Paasch, at Channel Lake. Mrs. Wilhelmine Mau (nee Newbert) was born on May 13, 1848, in Deschdel, Germany, and was married to William Mau in 1866, and came to America in 1889. When they first came to this country they lived for three years at Bassett Station, Wis., and in 1891 they settled at Channel Lake, where she has lived until the time of her death. To this union was born sixteen children, seven of whom are still living to mourn the loss of a loving mother. They are Mrs. Fred Paasch of Channel Lake; Mrs. Tillie Gotsch of California; Mrs. Ida Johnson of Minnesota; Mrs. C. W. King of Chicago; William, Harry and Fred Mau of Antioch, also fifteen grandchildren and one great grandchild, besides a number of other relatives and friends.

The funeral services were held at the home of Fred Paasch on Thursday afternoon at 1:15 and at the Wilmet church at 2:00 o'clock, with burial in the Wilmet cemetery.

On Wednesday, Dec. 12, occurred the death of James Walker Johnson at the Victory Memorial hospital in Waukegan, where he had gone a short time ago in hopes of benefiting his health.

Mr. Johnson was born on Oct. 13, 1874, at Thornton, Ill., but has spent the greater part of his life in the vicinity of Antioch, having come here with his parents when he was two years of age, and located on a farm east of Antioch, where he lived until the time of his death.

He is survived by one sister, Nellie N. Johnson of Antioch, and one brother, George T. Johnson of Kenosha, besides a large number of relatives and friends.

The funeral services were held at the home on Saturday afternoon, conducted by Rev. S. E. Pollock, with burial in the Hickory cemetery.

## Grade School News Notes

ROBERTA LEWIS, Editor  
Mrs. Garland, Mrs. Lux, Miss Tibbitts and Miss Elling took part in a play at the high school given by the Woman's Club.

We are all looking forward to the Christmas vacation.

The eighth graders are having a hard time with radio.

Some of the girls in Mr. McGarr's room are planning to give a little play this Friday before school closes for the Christmas vacation.

The seventh and eighth graders drew names last Friday so that each child will get a gift.

The seventh and eighth grades are enjoying a story from the Youth's Companion, entitled "The Edge of Raven Pool."

The eighth grade received a letter from Ray Bottoms, an eighth grader of Mt. Calm, Texas, describing the state. Edna Verrier was chosen to answer the letter for the eighth grade.

Many of the children have received letters from Martha Westlake, who is spending the winter in Florida.

### STORES OPEN EVENINGS

All the business houses in Antioch are open evenings to take care of the late Christmas shoppers. They will remain open each evening until and including Monday, December 24th. The stores will be closed all day Christmas.

## An Ideal Gift—

If you are in doubt as to what to give your friend or relative, who lives in Antioch or vicinity, or who has been a resident, but now residing in another city—what could be nicer than to make them a present of The Antioch News for a year. A present that would last and be appreciated by the recipient—and the cost of \$1.50, would be an economical gift.

## 20 Years Ago in Antioch

Thursday, Dec. 17, 1903

Frank Pittman, Jr., was a Chicago visitor Tuesday.

Chase Wohb was a Chicago passenger Tuesday morning.

Eugene Savage of Channel Lake visited friends and relatives in Chicago last week.

Miss Ada Butrick visited at Channel Lake a few days last week the guest of her friend, Mrs. Eugene Savage.

Mr. and Mrs. Frank Savage returned from their wedding tour last Saturday, and are now at home to their many friends in Antioch.

An egg famine threatens Chicago and prices have jumped to thirty-one cents. Owing to the unusual cold December the hens have evidently gone on a strike.

Men and teams are at work cleaning up the debris and excavating for the new Sibley building to be erected on the site of the building recently destroyed by fire.

Walter Stokels has leased the Wm. Burko house and will move to this place in February.

Mr. A. G. Watson and family attended the golden wedding anniversary of his parents at Templeton, Wis., this week.

From 18 to 20 degrees below zero was reported Sunday morning. Late risers perhaps did not find the mercury so low, but all agree, however, that it was cold enough.

The announcement has just been made public that H. D. Hughes and Miss Hattie F. Ames of this city were married Dec. 1, 1903. The news joins with a large circle of friends in wishing them a life of contentment and happiness.

## About Ready for the "Hop Off"

## Of Interest to Antioch Farmers

Timely topics and local news concerning stockmen, poultrymen, gardeners and dairymen. Edited by C. L. KUTIL

### MERRY CHRISTMAS

### SILVER MEDAL FOR LAKE COUNTY JERSEY

Majesty's May Thornbury 448570 started test at 3 years 1 month and in 365 days produced 9,987 lbs. milk, 476.66 lbs. butter fat. Entering class AAA of the Register of Merit, she becomes a Silver Medal Jersey in the state of Illinois. She was milked three times a day and carried a calf 216 days. Gauntlet's Oxford Topo 148097 sired the above cow, and her dam is Oxford Majesty's May 312975. This Silver Medal cow is owned by W. A. Brownsterton, Libertyville, Ill., Lake County.

Testers for Associations Needed  
In a letter just received from the University of Illinois, C. S. Rhode, professor of dairying, asks whether there are any young men near Antioch who would like to get into cow testing association work. There is a great demand for testers at present and that demand will continue up to the first of March. Many farmers, especially in the northern part of the state, are organizing testing associations.

Young men who have had a course in agriculture in the high school are preferred for the positions. However, others who are familiar with dairying will be given consideration. They can be given brief instruction at the college for a few days.

Anyone near Antioch wishing to get into the work may see C. L. Kutil at the high school. Arrangements can be made with him for a few days' instruction at the Antioch high school. This is a wonderful opportunity for some young men. A year's experience in cow testing work will mean much to any dairymen in the future. The salary is encouraging.

### Farm Is Best Investment in America Today

J. H. Howard, president National Transportation Institute, Chicago, spoke before a gathering of four hundred farmers and business men at the Farm-Business conference in Englewood hall of the Milwaukee auditorium. The conference was held in conjunction with the Wisconsin Products exposition.

Mr. Howard spoke of the interdependence of agriculture and commerce, emphasizing the fact that farmers cannot prosper unless factories give work to men who buy the products of the farms, and factories cannot exist without the farmers who buy their machinery and other products.

## High School Notes

Last Saturday night the cast of "The Charm School," including the noted Dobbin, himself, and also the orchestra, journeyed to Gurnee, where the play was again given. Many said that it was even better than it was when it was presented in Antioch. Everyone enjoyed it, and although it wasn't a great financial success, it showed others the type of entertainment which A. T. H. S. gives. The performance at Gurnee gave the cast and others connected with the entertainment more confidence in themselves, so that in the future, the high school entertainments will be just as good, or even better, than ever.

On Wednesday afternoon the two elementary dramatic classes combined and gave a Christmas program at the 6th hour. A short play, written by Georgia Bacon, was part of the program. Members of the dramatic club and of the advanced elocution class were guests.

The clothing girls are working on a Santa Claus suit (wonder who it is for?).

On Friday of last week the high school pupils drew numbers and a to buy a present for that number. The faculty also drew numbers for gifts. The school children paid five cents each for the purchase of a Christmas tree and the school intends to spend Friday afternoon enjoying it at the annual Christmas party.

Since his training at Gurnee last Saturday night, Mr. Bright has been beseeched by the senior girls to open a beauty parlor. They sure looked wicked that night(?)

School will close Friday for a two week's vacation. The teachers will go to their various homes to spend the holidays.

The freshman English classes have just finished a group of demonstration talks, which were very interesting. Candy and cake-making demonstrations proved very popular—especially when the products were passed around. Many different types of things were demonstrated, such as knitting, bead bags, repairing auto tires, testing acidity of soil, and making Christmas boxes.

The basketball boys played a game with Waukegan last Wednesday, which they lost; but on Friday night of this week they play Waukegan and have hopes of having better results.

### WILCOX FINED \$5.00 AND COSTS ON SATURDAY

Peter Wilcox of Channel Lake was fined \$5.00 and costs in Justice Hoyt's court in Waukegan on Saturday on a disorderly conduct. The charges were placed against him by Charles Rudolph, also of Channel Lake.

### MILLBURN ROAD NOW STATE AID ROAD

The road from Wedges Corners to Hickory has been accepted by the state as a state aid highway, and as such will be subject to improvement under that program. It was announced last week at the meeting of the supervisors.

This is known as Millburn road and runs along the town lines of Warren, Lake Villa, Newport and Antioch townships.

### MASS AT ST. PETER'S CHRISTMAS

Mass will be said at St. Peter's Catholic church on Christmas day at 9:15 and 10:00 a. m.

Election of officers were held at the Semeau post of the American Legion of Wilmet this week as follows: Marshal commander, Lowellyn Raymond; vice commander, Warren Sarbr; adjutant, Ira White; treasurer, Chas. Bruel; sergeant at arms, Henry Mecklenberg; historian, Clarence White; chaplain, Lehnad Hageman. It was past by the post that hereafter upon the death of any war veteran of any war or near relative of same way receive a wreath of flowers.

## Hold Community Tree Service Christmas Eve.

### Boy Scouts to Be in Charge; All Urged to Join in Carol Singing

Under the direction of the Women's Club the community Christmas tree will be erected at the heart of the downtown. The Boy Scouts, and their own selves friends of the tree, will take charge of the tree, and also take part in the musical program given Christmas eve by the singers gathered around. An efficient committee, under the direction of Mrs. Charles Lur, have charge of the wiring and tag.

A short program of music, tag of carols, songs and the Boy band will be given at 9 p. mas eve. All who can sing who have the Christmas spirit and peace, "good will to men" and "gather around the tree" the band begins to play. Take your part in the Christmas service, symbolizing the birth of One who came that we might have a "more abundant life," and in whose name we are all children of the same great Father.

Because of the Christmas program being held in the churches for children, it was deemed necessary the community services be held at 9 o'clock. Come not later than 8:30 and let this be a real procession of the Christmas spirit. The community Christmas tree will stand during the night, bearing all its gifts, and, good th, good.

## IAS SPIRIT DISPLAYED

Antioch has taken on a Christmas appearance this year. The town has all very appropriate decorations and their windows and doors are worthy of the season. There is an unusual display of gifts of every kind. It does not have to trip to the "big town" gifts. And it is remarkable one can do right here in town in regard to price. Really much cheaper than can be found to the larger cities.

At present the Christmas rush has not shown up in full and it is expected that this will be another last minute Christmas, with everyone trying to get their gifts a day or two before Christmas. The stores in Antioch will remain open every night until Christmas, so if you are one of the last minutes it will be well to take advantage of this the latter part of this week, in auring plenty of time to look over the splendid line of Christmas offerings to be found in Antioch.

Purchasers of gifts should not forget to buy a gift for the Santa Claus. It is a better gift than anything else. It is unquestionable he purchased in Antioch, and the quality every bit as good. Make "Buy in Antioch" your slogan for the balance of the Christmas shopping—you will save time, worry and money and if it is not right you home town merchant will make it right—Wishing you and yours a very Merry Christmas—The Editor.

### NO RURAL DELIVERIES ON CHRISTMAS DAY

There will be no rural deliveries on Christmas day, according to the U. S. Postal authorities.

the entertainment, and the faculty will serve the eats. Who will be Santa?

On Tuesday evening the following people were initiated in the dramatic club: Leslie Palmer, Lester Nelson, Gladys Barthel, Russell Keulman, Ward Abt and Elma Cannon. The candidates had to successfully pass the art of stage balance, vocalization exercises, facial expression, mental torture on the stage, and if they did not satisfactorily pass those tests they were hung—of course it was necessary to hang them all.

Much credit for the success of "The Charm School" is owed to Miss Olson, Mr. Pollock, Mr. Rosling and also to Gideon Phayer, who furnished an unusual element of the show by furnishing Dobbin.

## Trevor Happenings

The Jolly Juniors were entertained at Social Center hall Tuesday evening by Herold Mickle and Henry Schumaker.

Mr. and Mrs. Tom Fenner and daughter Ruberta of Kallispell, Mont., visited at their cousins, Mr. and Mrs. Frank Yaw, and called on their many friends in and about Trevor. Mr. and Mrs. Fenner owned the Mrs. John Holcher place before going to Kallispell, 19 years ago.

Mr. John Mutz, George Patrick and Milton and Dick Moran transacted business in Kenosha Wednesday.

Mr. and Mrs. L. H. Mickle, Mrs. Joseph Smith and Mrs. Byron Patrick and sons Robert and Ray attended the chicken dinner and bazaar at the Over Lake Thursday.

A number of Trevores attended a meeting of the Parent-Teacher society at Liberty Corners in Monday evening.

Mr. and Mrs. Walter Baethke and children of Kenosha were Sunday guests at the Mr. August Baethke home.

Fifteen tables were played at the card party Saturday evening. The prizes in each were awarded to Daisy Mickle, Mary Sheen, Joseph Smith and Raymond Schilling. In buncos prizes went to Gertrude Lavanduski, Paulina Copper, Chester Runyard and Edward Hirschmiller.

Joseph Lavanduski, who is attending school in Kenosha, spent over the week end with his parents.

Opal Pacy and Viola Schults of Wilmet visited Adelino Oetting on Sunday.

Mr. Arthur Bushing visited his mother in Chicago Friday.

Mr. Tom Fleming and Mr. Willis Sheen were in Burlington Monday.

Mr. and Mrs. Bloomer of Chicago, visited at the William Evans home on Wednesday.

Mr. Ira Brown and daughter, Mrs. Arthur Bushing were in Kenosha on Wednesday.

Mrs. John Runpeaky is on the sick list.

Miss Lucille Evans of Kenosha spent Sunday with her parents.

Mrs. L. H. Mickle and daughter, Daisy, Mrs. Hiram Patrick and Mrs. Sam Mathews autoed to Racine Monday.

Mr. and Mrs. Arthur Bushing attended the reception for Mr. and Mrs. Roger Huntton at Salem on Saturday evening.

Lion of Lucerne.

The Lion of Lucerne is a famous piece of sculpture at Lucerne, Switzerland, hewn out of the sandstone rock in the side of the cliff. It represents a colossal lion, transfixed with a spear and dying, but still endeavoring to protect with its paw the Bourgeois fleur-de-lis. This monument was designed by Thorwaldsen and was dedicated in 1821 to the officers and soldiers of the ill-fated Swiss Guard—nearly 800 in number—who were slain August 10, 1792, while defending the palace of the Tuilleries from the attack of the mob.

## Making Motorists Think

Autolists summoned before Judge Meredith Yeatman in the Cincinnati, O., municipal court, must get pretty uneasy under the collar when their eyes glimpse a certain wall decoration immediately behind and above his honor's chair. There, in big bold letters and an illustration of a skeletonized death, appears a sign of warning to law-breaking motorists. It's one they can't soon forget.

Above is a reproduction showing

Judge Yeatman in the chair, calling attention to the sign. Note the simplicity with which it is worded; yet there can be no doubt as to its meaning. The numerals in the center—"Deaths—102—To Date"—are changed almost every day—every time another fatality occurs. And, it is reported, the psychological effect of this sign on speeders is having a helpful effect. A good idea for speeders' courts in other cities to follow.

MAN, 96, BOASTS OF 151 LIVING DESCENDANTS

Perry Soles Cobb of Lysander, Onondaga county, New York, has just celebrated his 96th birthday at his home at Adams. He has 151 descendants. Mr. Cobb, the oldest Civil War veteran living in Jefferson county, boasts of eleven children, sixty-three grandchildren, seventy-one great-grandchildren and six great-great-grandchildren.

Mr. Cobb is the father of Charles Cobb of Antioch and will be remembered by many here as he has made several visits to his son's home here.

Sudanese Eat Lizards and Ants.

Natives of the Sudan, who now number about 5,000,000, subsist chiefly on a diet of roots, berries, insects, and such animals as lizards, white ants and dried caterpillars. In some spots in their land the finest cotton in the world is raised. An English party recently made a 2,500-mile trip across the Sudan to Belgian Congo, and among other things discovered that the population has doubled in the last twenty years, while the big game of the country is rapidly disappearing from the jungle with the advance of even primitive settlements.

Highest Bridge in U. S.

It is claimed that the suspension bridge over the Snake river, near Twin Falls, in southern Idaho, is the highest in this country, if not in the world. The actual measurement is 345 feet from the floor of the bridge to the stream, and the length of the span is 688 feet. Aside from its extreme height, the bridge is of interest because, although materials had to be hauled a great distance, the structure was completed in four months.

American Plant in England.

Introduced by accident in 1879 into the bay of Southampton, at Hythe, an American plant, called the Spartina Townsendii, has spread rapidly along the English coast, flourishing vigorously in spite of the fact that it is under water part of the time. The plant is an excellent fodder for cattle and may possibly be used for paper pulp. It may be introduced to the French coast to bind the shifting sands.

Scots Fought Potatoes.

When the potato was first introduced into Scotland it met with much opposition. Sermons were preached against it, in which it was declared that, as the potato was not mentioned in the Bible, it must be unfit for Christians to eat. It was even described by one divine as being the forbidden fruit which had caused the fall of Adam.

WHAT SORT OF SNOW REMOVAL ON ROADS?

Importance of Work to Highway Investment

A good road may be badly injured by improper snow removal. As yet, clearing a highway of snow is "anybody's job" in most localities; if the State or county doesn't do it, the transportation company will. Indeed, many automobile trucking concerns in the Middle West and North have more adequate snow removal apparatus than the States, the roads of which they use.

But the private concern, in removing snow from a highway, naturally considers only its immediate benefit, and spends no more money on the task than necessarily requires.

Snow removed from the complete width of the highway, down to the surface, permits the road to freeze, but it freezes all over, and in the spring, thaws all over. Snow piled from the center of a highway sends a strip for freezing, leaving sides of the road protected from by snow. When the thaw comes the snow disappears, the sides left soft and the center hard; rutted and broken crown.

Snow which is removed but piled results in ruts in the covering of snow, which all wheeled vehicles follow. There is no more direct treatment to be given any big than a concentration of all loads the same spot. The result is a pushing aside of foundation surface, and a rutty condition which is extremely destructive of the road.

County, State and municipal authorities can well afford to make regulations regarding snow removal, which will protect the highways which cost so much. An investment of five, ten, twenty, thirty thousand dollars a mile should not be imperilled because of unwillingness to spend a few dollars per mile during winter for proper and adequate snow removal.

Work and no worry—there you have the receipt for attaining ripe old age, in the estimation of Daniel Driscoll of Sawtelle, California. He ought to know. Mr. Driscoll, who is pictured above, has just passed the 125th milestone of his career.

And he is just as spry and active as a man of thirty. If you saw him going through his daily routine of work in his garden, it is said, you'd never think the man was a centenarian. Quite interesting, we'd say.

Insincerity.

It is curious how many hold that insincerity is the most unforgivable sin. Their denunciation never lets up.

That we're thinking of you. And with it goes our wish that yours will be

A Very Merry Christmas

and a

Happy New Year

Antioch Lumber & Coal Co.

The Right Spirit.

When I am in the dentist's chair I do not raise a fuss, but thank my lucky stars I'm not a hipopotamus. When baggage men destroy my trunk I do not rave and rant, but mentally declare I'm glad I'm not an elephant. And wearing new shoes, stiff and tight, which painfully impede, I smile and think how nice it is I'm not a cent, etc.—Boston Transcript.

Indirect Lighting.

What is believed to be the earliest recorded example of indirect lighting is credited to Queen Victoria, when in 1830 at her suggestion, the Durbar room at Osborne was illuminated entirely by "deflected" light, not a lamp or fixture, or any source of light being noticeable.

Sawdust and Aches.

The latest substitute for cardboard and wood in the making of boxes is a chemical composition of sawdust and ashes. The finished boxes are light, washable, sanitary and nonpoisonous. They are waterproof and as fireproof as asbestos, and can be made in any degree of flexibility or texture, either as hard as oak, tough as metal or as pliable as cardboard.

Japanese Lawmakers.

The Japanese parliament is modeled after that of Great Britain, but its spirit is entirely different. In Japan debates in parliament are pleasant occasions where men of second rank are permitted to display themselves. The leader of a party may not even have a seat in the chamber.

## Local and Social Happenings

Born to Mr. and Mrs. Lester Osmond on Sunday, Dec. 1, a baby girl.

There will be no deliveries made on the Antioch routes on Christmas day. This is the first time since the mail was delivered from the local postoffice that the carriers had a vacation on Christmas day.

The Wilbur Hunter family were released from the scarlet fever quarantine the first of the week.

The Frank Wilton family were released from the scarlet fever quarantine the last of the past week. The oldest daughter Myrtle and the youngest son Ward being the ones having the fever, although the entire family have been sick with tonsillitis.

Mr. and Mrs. George Kuhaupt visited Sunday at the home of their daughter Mrs. Raymond Thompson at Forest Park.

Mrs. Lulu China and family moved last week into the home of her parents, Mr. and Mrs. Lewis Savage, where she expects to remain during the winter months while her parents are at Florida.

David Lightner left on Friday to spend over the week end in Chicago. He returned home on Tuesday.

James Todd of Richmond was an Antioch caller on Friday.

Harry Lowry transacted business Chicago on Friday.

Mr. and Mrs. William H. Davis and children of Chicago motored out Saturday returning in the evening accompanied by the former's mother and sister.

Mrs. Helman Fox spent several days the past week in Chicago.

Jerome Burnett is spending some time with his daughter at Lake Villa.

J. W. McGee was transacting business in Chicago on Tuesday and Wednesday.

Mrs. Violet Thibault shopped in Chicago Monday.

A shower was tendered Mr. and Mrs. Joseph Smith last Friday evening at the home of the bride's mother and father, Mr. and Mrs. Austin Savage of Hickory. About 40 friends assembled for the occasion. After games and refreshments the young couple were assisted in opening parcels. A real good time was enjoyed by all.

### CARD OF THANKS

We wish to thank the neighbors and friends for their many acts of kindness rendered us during the sickness and death of our brother, and especially do we thank those who furnished floral offerings.

Miss Nellie M. Johnson  
George P. Johnson and family.

Kathleen Mayvourneen Loan.  
A debtor, on being sued, acknowledged that he had borrowed the money, but declared that the plaintiff knew at the time that it was a Kathleen Mayvourneen loan. "A Kathleen Mayvourneen loan?" questioned the magistrate, with a puzzled look. "That's it, your honor—one of the 'it may be for years, and it may be for ever' sort."

Alaska Thinly Settled.  
Alaska, with an area one-third greater than the Atlantic states, has no more white residents than there are office workers in any one of several skyscraper buildings of New York city.

Auto Supplants Camel.  
The automobile has supplanted the camel as a mail and passenger carrier over the hot sands of Arabia. The car makes the trip in four hours that required an entire day for the usual camel caravan.

### Real Serenity.

Real serenity of life is reached when one does not care because he was not invited to the picnic.

### Here's Latitude.

Here's latitude is the name given to the belts of calms in the North Atlantic ocean between the region of westerly winds of the higher latitudes and the region of trade winds of the torrid zone. The origin of the name is not certainly known. Some authorities believe that it was derived from the fact that vessels with cargoes of horses were often so delayed because of the calms that the animals perished from lack of water.

### Instinct and Intuition.

Instinct is the term applied to an inherited tendency to perform a specific action in a particular way whenever a situation arises. Intuition, on the other hand, implies the faculty of knowing something beforehand, whether it be mystical, intellectual or moral.

### San Francisco Vigilantes.

The Vigilantes were a volunteer committee of citizens who organized in San Francisco in 1851 to combat undesirable conditions which existed in California following the gold rush of 1849. They dealt out summary justice until conditions became stable.

### Ambergris.

Ambergris is a waxy, secreted substance formed in some sperm whales, taken from whales' blubber, but often it is found floating in the water, especially in the waters of the tropics. It is also found cast up on beaches. Lumps which sometimes weigh several pounds in weight. On exposure to air it develops a sweet, musky odor. Ambergris has a high oil value as a material in the manufacture of perfumes. Its price is increasing, due to the scarcity of the sperm whale and the demand for the material.

Will open offices in the Chin Black after January 1st.

## Christmas Shoppers

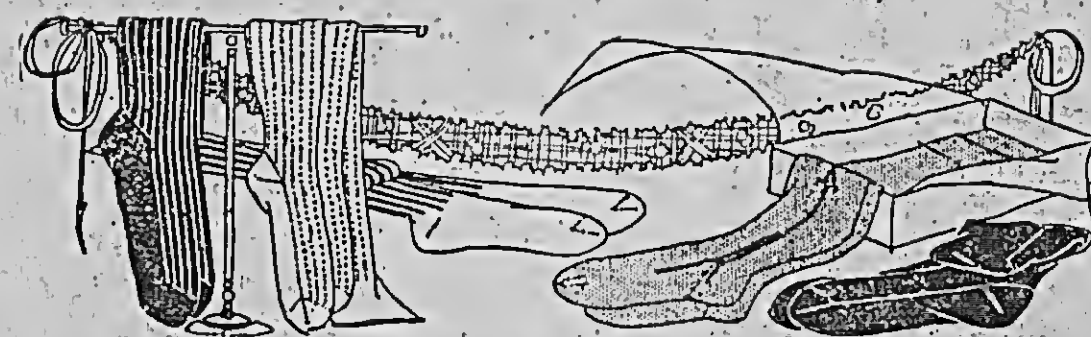

Will find this store offering many happy solutions to their vexing Gift problems. For, we've searched the market centers far and wide, and it is doubtful if we've overlooked one single article that would prove an acceptable Yuletide token.

It is the useful gifts that are appreciated because they're a joy to receive. Such as Blouses, Gloves, Hosiery, Purses, Sweaters, etc. And so we're offering these suggestions:

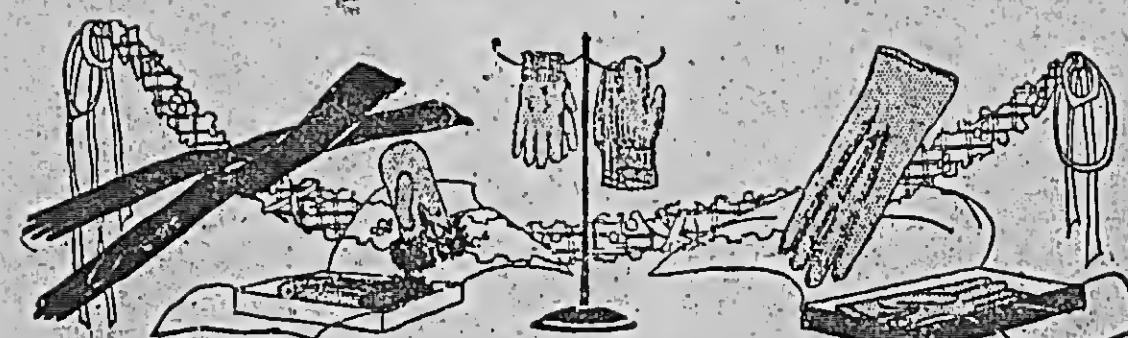

Our line of handbags for both women and children will greatly help you to solve that Christmas Gift problem. Some are of the finest leathers, the richest colors and smartest shapes. Self-covered, plain metal filigree frames. Many of the bags are well lined and fitted with coin purse and mirror.

Priced 25c to \$8.00

A beautiful showing of hosiery, in silks, wool and silks, and wool. Also a fine collection of hosiery for the children and men folks. You will not find it hard to select a hosiery gift here.

Priced \$1.00 to \$3.00

Gloves make a very acceptable gift for Christmas. If in doubt as to what to give, come in and look over our very complete line for both grown-ups and children. Gloves of every description are here for your choice.

Priced 25c to \$3.00

## Trinity Methodist Episcopal Church News

at 9:45 a. m.  
by Hel...  
maker

9:45 a. m.  
10:45 a. m.  
7:30 p. m.

Friends in the full cast of  
Alma. Penn and both choirs Friday  
Holly. The adult choir will  
sing the same night.

The "Prophecy Child"  
will be at the church Sun-  
day evening at 7:30 p. m., by the cast  
of four, with the aid of two invisible  
choirs, one of adults and one of Jun-  
iors. This play has a real Christ-  
mas message. No have traded Santa  
Clause back for Jesus.

The Christmas tree service will be  
held at the church Monday evening  
at 7:00 o'clock. Bring your gifts, if  
you wish, and have the kind of a good  
time you have always had. The chil-  
dren will put on the program, which  
will be the service we will re-  
turn to the Community. Christmas tree  
we shall use the Carols we  
have been learning, in what we hope  
will be really Community singing.

The regular offering for the Lake  
Bluff Orphanage will be taken at the  
service on Monday night. Sun-  
home, after the pageant, will be  
the Christmas offering for the  
Lake Bluff Orphanage.

The whole of Methodism, every  
church, is willing to make possible  
an immediate reconstruction. The  
motto of this season's work is,  
"What fell in a day we will build in a  
day."

Watch next week for notice of the  
African who is coming Dec. 30.

## Centenarian

Work and no worry—there you  
have the recipe for attaining ripe old  
age, in the estimation of Daniel Dris-  
coll of Sawtelle, Cal. He ought to  
know. Mr. Driscoll who is pictured  
above, has just passed the 105th mile-  
stone of his career.

And he is just as spry and active  
as a man of thirty. If you saw him  
going through his daily routine of  
work in his garden, it is said, you'd  
never think the man was a centen-  
arian. Quite interesting, we'll say.

That it pays to steam-sterilize milk  
cans has been shown conclusively by  
tests made by the United States de-  
partment of agriculture. Unsteamed  
cans having a bacterial count of 154,  
000,000 contained 18,000,000,000 at the  
end of 24 hours, while steamed cans  
having a count of 3,400 immediately  
after steaming and left practically  
dry had 7,900 in the same time. The  
bacteria count on steamed cans left  
damp for 48 hours increased from  
4,400 to nearly 6,000,000.

## WISCONSIN IS VISITED BY MANY TOURISTS

Visitors in Summer Travel 432,000,000  
Miles on Wisconsin Roads

Approximately 2,500,000 out of  
state tourists visit Wisconsin annu-  
ally and travel 432,000,000 miles while  
in the state, according to results of  
the count made by the state highway  
department during one day a week  
for seven weeks, made public today.

The summary shows that the aver-  
age number of persons per car was  
3.66; the average stay within the state  
was 10.3 days; the average miles  
traveled was 618; the average amount  
expended per car was \$125.50, or \$11.  
72 per day, which resulted in an aver-  
age daily expenditure of 3.21 per  
person. Thirty-six per cent of the  
tourists camped at parks or by the  
roadside, the summary shows, four  
per cent stopped at summer homes,  
60 per cent stopped at hotels.

The count showed that the average  
number entering the state and leaving  
during the period for which the count  
was taken was approximately the  
same, or 7,000 cars daily each way,  
the review states. "The tabulation  
the occupants of each car expended  
\$11.72 per day. Multiplying the 7,  
660,000 car days by \$11.72, the amount  
expended per day, gives us a total ex-  
penditure of \$89,562,400 for the total  
tourist season."

Considering the number of persons  
entering the state on highways at  
more than those checked in the count, it is  
estimated that the amount left in Wis-  
consin during the season by out of  
state people is \$64,000,000. Consid-  
ering the state tourist traffic it is  
estimated that \$1,500,000 annually is  
spent by tourists.

## SUBSTITUTE RATION DEvised FOR CALVES OF DAIRY HERDS

In dairy herds whose entire output  
is sold as whole milk at high prices,  
there is need for a means of raising  
the calves on other feeds. A number  
of substitute rations have been  
worked at various experiment stations  
which have proved fairly satisfactory.  
On the experimental farm of the  
United States department of agricul-  
ture, at Beltsville, Md., a mixture has  
been devised as the result of experi-  
ence, which is suggested for use in  
raising calves where the whole milk  
is more profitably disposed of through  
other sources.

The department's recommended ra-  
tion is as follows: Take 50 parts fine-  
ly ground corn, 15 parts flaked oil  
meal, 15 parts finely ground rolled  
oats, 10 parts dried blood flour, 10  
parts skim-milk powder, one-half part  
salt. Stir up with warm water at the  
rate of 1 pound of the meal mixture to  
about 6 pounds of water. Increase  
gradually as the whole milk is de-  
creased, until at the time the calf is  
50 days old it should be getting only  
the gruel. At this time 1 1/2 to 2 pounds  
of the meal mixed with water will  
constitute a day's feed. The total  
quantity of milk used is about 300  
pounds; if less is fed the calves are  
likely to be unthrifty.

The time at which calves can be put  
on milk substitutes alone, says de-  
partment dairymen, depends upon the  
same factors as in the use of sepa-  
rated milk, namely, the breed, develop-  
ment, and vigor of the calves, etc. It  
is hardly safe, as a rule, even with  
the most vigorous ones, to attempt to  
put them on milk substitutes alone  
within one month after birth; and  
with calves below normal in vigor  
some milk for two months or more  
may be necessary to raise them.

The department suggests, as a guide  
for feeding the above substitute to  
large vigorous calves, the following  
schedule: First 10 days, 10 pounds  
of whole milk daily; second 10 days,  
8 pounds of milk and 0.4 pound of  
meal (mixed up in 6 times its weight  
of warm water); third 10 days, 6  
pounds milk and 0.8 pound meal;  
fourth 10 days, 4 pounds milk and 1.2  
pounds meal; after 50 days, 2 pounds  
meal and no milk. Smaller and less  
vigorous calves should be fed some-  
what less, and the milk feeding should  
be continued a little longer. In any  
event, a total of 300 pounds of milk  
should be sufficient. Grain and rough-  
age should be fed with milk substi-  
tutes the same as with separated milk.

Whole milk is the best food for a  
calf; skim milk ranks second. Calves  
fed the substitute as stated above  
have been subject to no more diges-  
tive troubles than the skim milk fed  
calves and the gains in weight have  
not been materially less.

An Elderly Tree.  
There is an evergreen tree in Sun-  
gshan province of Honan, China, which  
has a circumference of nearly 35 feet  
and is estimated to be over 2,000 years  
old.

**LUDEN'S**  
MENTHOL COUGH DROPS  
for nose and throat  
Give Quick Relief

To prevent the spread of livestock  
diseases from one part of the country  
to another the United States depart-  
ment of agriculture maintains thru  
inspection at all important market  
centers. Last year, the inspectors for  
the government inspected nearly 21,  
000,000 cattle, practically 20,000,000  
sheep, and more than 48,000,000 hogs.  
To comply with regulations so that  
they might continue in interstate  
commerce 12,775 cattle and more than  
1,000,000 sheep were dipped. More  
than 458,000 hogs were immunized  
against hog cholera under department

supervision for distribution as feeding  
and breeding animals.

The economic importance of tuber-  
culosis in the dairy industry is shown  
by figures on the length of time cows  
remain in the milking herd. The fig-  
ures, prepared by the United States  
department of agriculture, show that  
the average cow remains in the milk-  
ing herd 4.2 years. However, when  
the cows removed on account of tuber-  
culosis are not considered it is found  
that the turnover is not nearly so  
great, the useful life of the average

cow being 6.7 years. The eradication  
of the great cattle plague will cut  
down the costs of production of dairy  
products.

IV. Sunday in Advent:  
Holy Communion ..... 8:00  
Church School ..... 9:45  
Choral Eucharist ..... 11:00  
On Christmas eve, at 11:30, there will be a midnight Eucharist, with music and sermon. On Christmas day the service will be at 9:00 o'clock in the morning, Christ's mass. Every body is welcome at these services.  
The parish Christmas party will be held on Christmas eve, at 7 o'clock, at the rectory.  
Every day, following Christmas, there will be a celebration in the church at 8 a. m.

In some cases, according to investigations of the United States Department of Agriculture, heavier grazing produces better results than lighter grazing of pastures. At McNeill, Miss., where the department maintains an experiment station, records were kept of the gains made by native cattle grazed on pastures burned over each winter. When they were allowed 10 acres per head they made good gains until about the middle of June and then barely maintained their weight until frost. When heavier grazing was practiced the same rate of gain was maintained for a longer time because the maturing of the grasses was retarded.

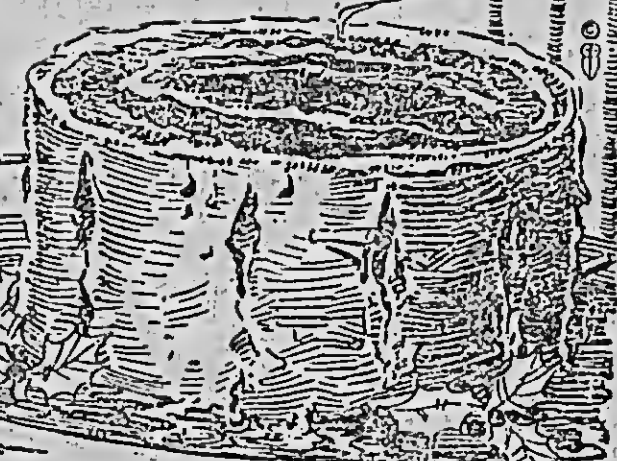

### Sorry for Jeremiah.

A clergyman wrote a comment on the "Lamentations of Jeremiah" and sent it to a bishop for his judgment upon it. The bishop, after he had read it, sent it back with this note: "There is but one thing I regret about this work—namely, that Jeremiah is not living now to compose a fresh book of lamentations on your commentary."—Boston Transcript.

## WHY BANKS?

### LESSON II

By J. H. PUELICHER, Chairman,  
Committee on Public Education, American Bankers Association.

J. H. Puelicher

Why does Government charter banks, simply to make money for stockholders, or because banks are needed by the public? Text books say, "A bank is a quasi-public corporation, chartered by State or Nation, to receive deposits and make loans."

STOCKHOLDERS = owners.

QUASI-PUBLIC = semi-public, that is, owned by private stockholders, but regulated by government to see that the depositors' money is safely loaned.

STATE BANK CHARTER = privilege, grant or right to do a banking business under supervision of the State Banking Commissioner.

NATIONAL BANK CHARTER = grant to do business under supervision of the Federal Comptroller of the Currency.

SUPERVISION = the sending by government of examiners, at least once a year, into a bank without notice, to count its cash, examine its loans, bonds and mortgages, and see if its books are correct.

Banks can do only those things permitted in their charters. No business is more closely watched and regulated by State or Nation. Banks cannot, therefore, be run simply to make money for stockholders, but are chartered to meet the needs of the people and are held to that purpose by government supervision.

### Merely a Stone.

The supposed skull of the Tertiary period found in Patagonia some time ago is merely a curiously shaped stone and of no scientific value, according to a committee of eminent scientists of the Buenos Aires and La Plata museums of natural history, which has carefully examined it. At the time of its discovery great interest was excited because it was supposed to be the oldest trace of mankind in existence.

### "The Rosary" Popular.

Eighty thousand copies of the song, "The Rosary," were sold in 1913, the year of its publication, and many thousands of copies have been sold each year since then. It has been translated into most languages, including Esperanto.

## REALITIES--AND THE ALLIED DEBT PROBLEM

By WALTER W. HEAD,  
President, American Bankers Association.

Walter W. Head

As a business proposition there is just one reason for considering a recasting of the balances due the United States from foreign governments. That is the possibility that such action would aid in re-establishing a foreign market which will absorb our surplus products.

It is possible, of course, for the United States to isolate itself. We can produce everything necessary to sustain life. Mere existence, however, is not the purpose of life. We cannot prosper as we have unless we dispose of the surplus products which naturally accumulate, both agricultural and industrial. We must either sell this surplus abroad or curtail our production and generally lower our standard of living.

Our foreign trade depends upon the purchasing power of foreign countries. Europe's inability to buy has impaired our ability to sell. We have an interest in Europe's prosperity. To protect that interest we must be concerned in the restoration of our debtors' capacity to trade with us and to meet their obligations. We should deal with this subject exactly as a banker deals with a loan of doubtful value.

### Get the Facts

The United States should have a representative with official standing in the Reparations Commission. We should not necessarily be bound by any agreement which may be proposed, but our representative should gather all information available. The United States Government, of its own motion and based on its own information, should then decide whether it should consider the readjustment of its accounts with Europe, and, if so, in what manner. Our own Debt Funding Commission should recommend to Congress whatever readjustment, if any, of the Inter-Allied Debt may be warranted.

THESE SUGGESTIONS ARE PURELY FOR FACT-FINDING AND ADVISORY PURPOSES—FOR GETTING DOWN TO THE REALITIES OF THE CASE. Precisely what our action should be, to serve the common interest, will be determined by information which at this time is not available. Our first step is to secure the information and our duty is to follow developments intelligently.

### THE FRIEND IN NEED

(From the Nation's Business)

Some there are who still think the banker wears horns. Who is the hard-boiled citizen, the man behind the thumb-screw? The banker, they will tell you. In the light of this illusion, consider a brief excerpt from the resolutions adopted at the recent Atlantic City convention of the American Bankers Association.

"The conclusion is inevitably forced on the impartial observer that the primary need of the world is moral and spiritual regeneration as the essential basis for economic recovery. Until the nations of the world are willing to liquidate their hates they can make little progress toward liquidating their debts."

Hard-boiled? Not that! It harks back to Socrates. "The true politics," he said, "is first of all a politics of the soul."

Come to think of it, when we want someone to take care of our funds, to whom do we turn? To the banker. When we are in a tight place and need funds, to whom do we turn? To the banker. When there's a olive-entree affair, whose time and money do we commandeer first? The banker's.

—Shop in Antioch—

## Smilin' Charlie Says—

All o' that braggin' y'hear is bein' done by th' fellers at th' bottom o' th' hill—th' folks who've made their way up are too much out o' breath from th' climb t' do any useless talkin'.

Angler Fish "Fluge" Victim.  
More strange forms are exhibited by the angler fishes than by any other fish family. Living at the bottom of the sea and seeking their prey by stealth, angler fishes do not need powerful swimming muscles, and as a consequence the size of the body and tail has become considerably reduced, so that the head, relatively to the size of the body, is unusually large and villainously ugly. The rays of the back fin are long, and the foremost is provided with flaglike flap of skin at the top, extremely sensitive to touch, and playing an important part in the capture of its food.

A farmer's institute school held in Wilmett.

Mrs. J. Buckley and Der.

Christmas holidays with

Mrs. Petroman.

protest made by Professor Clar.

to the Wisconsin State

Band association officers was

considered and word has

been received that the U. F. H. school

choirs, one of them was awarded fifth place, a prize

of forty dollars worth of music and

musical instruments.

The Christmas tree

held at the church

at 7:00 o'clock. Mrs. W. Lewis and children, who

attended, spent several weeks

of their lives in the U. F. H. school.

and Mrs. E. J. Wheeler of

you have always returned Sunday.

will put on the installation of

the steam heating plant for the

to the Community Council. The plant is to be

in the American Radio

been learning from the same

it is really Company.

The regular offe. Margaret Buffon of Kenosha

Bluff Orphanage several days the first of the

service on visiting at the home of her

home, after that day Buffon and Roy Buffon.

the Christmas tree and a force of

asked of our commenced work Monday on the

destroyed ton of a chimney at the U. F. H.

the whole of gymnasium

active. Mrs. A. C. Stoen.

and Mrs. S. Jedele, Miss Mc.

and Mr. Reschke motored to

the Saturday.

Fl. Christmas tree and pro

gram for the children of the M. E.

church will be held on Monday eve

ning, Dec. 24. Rev. Glenn James will

preach a Christmas sermon Sunday

evening at 7:30.

Mr. and Mrs. George Higgins were

at Prairie Monday for the

at. Mrs. Higgins' mother, Mrs.

at. Mrs.

at. Mrs.

the Heorlin hospital Tuesday for a

tensilar operation.

Mr. and Mrs. J. Gauger and Ger

trude were in Burlington Saturday.

Wm. Volbrecht and Paul Volbrecht

of Antioch spent Sunday with their

elder, Mrs. J. Collison, of Richmond.

Mr. and Mrs. James Sherman of

Graylake, and the former's sister,

Mrs. J. C. Vanorale, of Des Moines,

Iowa, were guests of Mr. and Mrs.

Fred Sherman over Sunday.

U. F. H. S. Notes

Orchestra practice was held Tues

day and Thursday.

The sophomore English class has

completed its work on Elias Marnar.

The freshmen are making Christ

mas presents in sewing class.

Glee club practice was held Friday

afternoon.

The juniors sent for their rings last

week.

The sophomore cookery class is

preparing for a candy sale, which is

to be held Friday.

Hazel Stoen spent Saturday at

Wauconda.

The students drew numbers Mon

day afternoon for the exchange of

gifts. Each gift is to be accompanied

with a few lines of poetry.

The advanced algebra class studied

logarithms last week.

Stanley Becker was absent Friday.

The regular band practice was held

Friday.

The freshmen are studying "The

First Christmas Tree," by Henry Van

Dyke.

The regular meeting of the literary

society will be held Friday afternoon.

This is to be a Christmas program.

A very fast game of basketball was

played last Friday night between our

local high school team and a team

composed of young men attending

Milwaukee Normal school. Despite

the advantage of an average of twen

ty pounds per man, the visitors were

unable to check the rapid offensive

work on the part of our local men.

The local team did very much better

team work last Friday night, and the

defense was much improved over

what it was in the McHenry game.

A great deal of hard luck in basket

shooting was encountered by the lo

cal boys throughout the entire game,

and especially during the first half.

R. Richter and Buffon both did excel

lent team work, and both showed

much improvement over the game

with McHenry. Becker played a very

fast game and while he, together with

the rest of the boys, found difficulty

in locating the basket, managed to

fast game and while he, together with

the rest of the boys, found difficulty

in locating the basket, managed to
